

Make Better Hiring Decisions

" Without data you are just another person with an opinion"
George Deming

It all starts with a job

You know that you need to hire but you don't know who you need to hire. Start by defining the job's requirements. The PI software guides you through setting behavioral and cognitive job targets.

Our chief want is
someone to INSPIRE us to
be what we know we
could be. -
-Ralph Waldo Emerson

Assess away!

Sending assessments to candidates is easy. A few quick clicks and a targeted assessment will be in your candidates' inboxes instantly.

Compare and evaluate

As results roll in, quickly and efficiently rank your candidates based on how they match your set job requirements. Understand the gaps in their behavioral drives and cognitive ability before they set foot in your office.

Interview confidently

Create an Interview Kit based on the candidate's behavioral pattern in relation to the job target to ensure you're asking the right questions.
