

# Inspire Every Employee's Potential with The Predictive Index

The Predictive Index (PI) is a comprehensive platform equipped with numerous assessment capabilities, an analytical dashboard, frameworks and tools to facilitate and support employee engagement in order to predict performance in the workplace. PI is a scientifically-validated methodology which allows organizations to align their business strategy to their people strategy in order to identify and inspire their talent to achieve optimal results, every job and everywhere.

1

## Organizational Success

Increase performance  
predictability  
by over 58%.

2

## Optimize Talent

The PI platform is relevant for all  
businesses who recognize the  
importance of 'People KPIs' to  
optimize performance and
